

33615 - 1/2" Pre-Rinse Sprayer - 33615

## Application

The overhead spray assembly is used for rinsing or spraying water in directions controlled by hand operation of the spray nozzle. Dual hand knobs allow manual selection of hot and cold water mixtures.

## Standard Specifications

### Spray Assembly:

- Dual water control valves with built in check valves for cross flow prevention.
- Four arm kitchen handles with color coded indexes.
- 44" Flexible hose.
- Spring support for easy control.
- Finger hook to hold the spray nozzle at the back of the sink.

### Mounting and Connection:

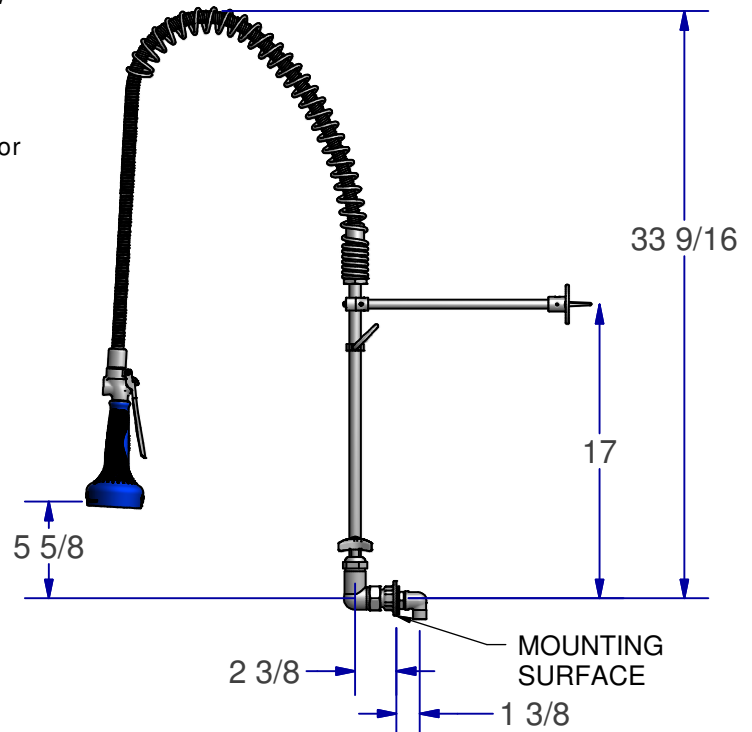

- 8" Center to Center vertical backsplash mount through 1-1/4" diameter holes.
- 1/2" NPT x 1/2" Sweat fitting.
- 3/8" NPT x 18" Tall riser.
- 12" Wall bracket for riser support.

### Operational:

- Spray nozzle 1.48 GPM

### Warranty:

- One year on parts from date of shipping.
