Tools Needed

Sledge Hammer

3/8" Nut Driver and Phillips Screw Driver

OR

Cordless drill With 3/8" Socket and phillips tip

Unpacking

Step 1

Remove the top cap of the carton.

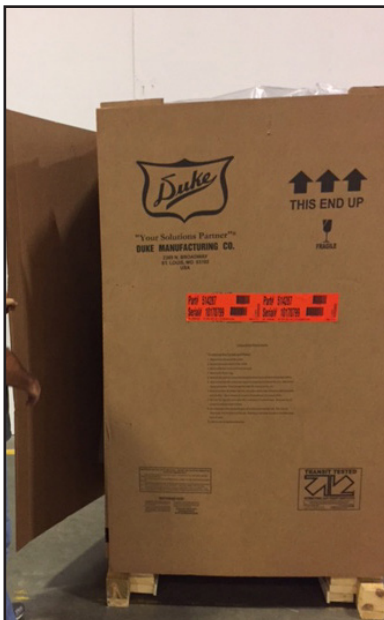

Step 3

Remove the four corners of the inner packing.

Step 2

Remove the outer sleeve of the carton.

Step 4

Remove the plastic bag.

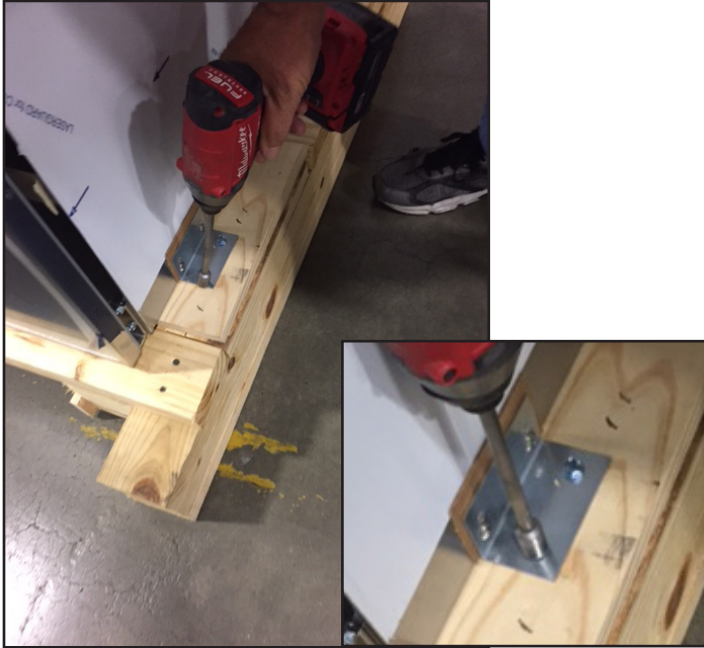

Unpacking - continued

Step 5

Using the 3/8" nut driver or cordless drill, remove the eight (8) screws that attach the shipping brackets to the **WOODEN PALLET**. (not the oven)

Note: Do not remove screw from side of oven.

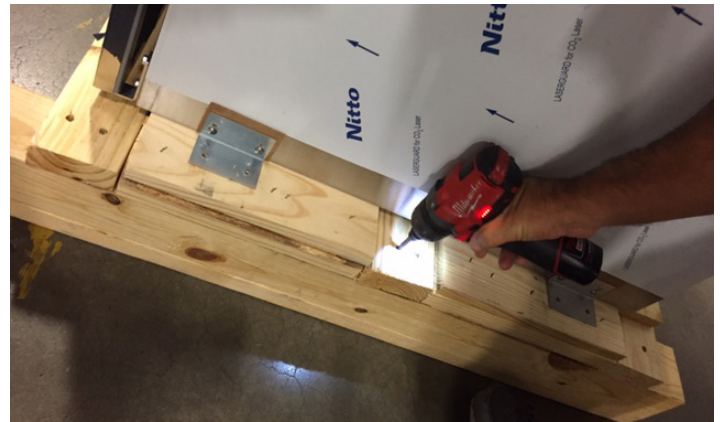

Step 7

Remove the eight (8) screws from the 2 X4 lumber in front and back. There are two (2) screws on each end of the lumber.

Step 8

Remove the four (4) screws from the center 2 X 4 (2) screws on each side, slide 2 X 4 out.

Step 6

Remove the four (4) screws from the plywood 1/2 X 2 that is located under the pallet near the floor. There are two (2) screws in front and two (2) screws in back

Step 9

Use a hammer to knock one 4X4 piece of lumber away from the unit. The unit will drop down onto the floor on that side. Then knock the other 4X4 piece of lumber away from the unit.

Unpacking - continued

Step 10

Using a phillips screw driver or the cordless drill remove the eight (8) screws that attach the shipping brackets to the unit. Then reinstall the eight (8) screws back into the unit. Discard the shipping brackets.

Step 11

Roll the unit to the desired position.
